To Whom it May Concern

I am interested in pursuing part time employment with Ekahaya Youth Project. I am presently employed as a Regional Administrator with DCFS. The Ekahaya Youth Project is an organization working with the Bayou Health System that provides case management services to youths with delinquency issues and their families.

The part time position I want to pursue with the Ekahaya Youth Project is Parent Trainer. This position does not provide case management services. Instead I would meet with parents and explain the services Ekahaya offers and if they are interested get them to complete the paper work necessary to complete services.

I am requesting an advisory opinion as to whether this part time employment is consistent with my ethical responsibilities to the state of Louisiana.

I can be reached at 337-501-3986 and your assistance in this matter is greatly appreciated.

Sincerely,

Lorrie Briggs, MS
